

Do you know the Mots de Zaza?

We are not talking about the words collected by Zaza the mouse of the famous book by Jacqueline Cohen, but the association of parents who manage the nursery school and primary school libraries.

What are the operating principles of the « Mots de Zaza » library?

Launched with a donation from the APEEE in 1994, the library is an officially registered A.s.b.l. (non profit making association). It is divided into linguistic sections. It is managed by parents on a voluntary basis, for each linguistic section.

It is financed by voluntary contributions (10 €per child per year).

Various events organised by the Committee, such as the annual Book Fair or the traditional stand at the School Summer Fête with its popular «balloon race», also allow us to constantly enrich the collection of books.

What types of books are available?

In addition to fiction novels, one can find works in various fields such as Sciences, History, Geography, Architecture, Arts, Sports, Religion, Do-it-yourself or Cookery. Anything to encourage a love of literature amongst children.

How are the books managed?

Books are purchased in the various languages for the fields referred to above. They are then labelled and recorded by the managers of the corresponding sections and by the school librarians. During the weekly or fortnightly visits of the classes to the library, volunteers help the children to choose books, and chase up lost books and late returns. Returned books are arranged on the shelves after having been repaired or cleaned as necessary. But the most enjoyable part is the telling of stories especially in Nursery school and early years of primary.

You wish to contribute?

As you can understand, managing the library requires considerable effort by the volunteers. If you wish to help us with the organisation of events, the management of the library or to read stories to the children, we would be very happy to count you amongst us!

How to contact us or meet us?

You can send an e-mail to motsdezaza@yahoo.com. You can also attend the next General Assembly of « Mots de Zaza » about which you will be informed officially by e-mail via the class representative of your child's class.
